"Before Spunlik Heritage membership my husband and I felt like we were stuck. I was working minimum wage job at a local casino in Hong Kong. My weight at that moment was affecting every aspect of my life. We looked into gastric bypass surgery as the solution, but it was too expensive. Choi, my husband was diagnosed with Type 1 Diabetes and dealing with huge daily blood sugar fluctuations. The monthly, insulin and equipment costs averaged \$1200. We used to think we would be in debt forever and that being tired and feeling sad occasionally was just how we were supposed to feel.

I sat down with a childhood friend who introduced us to spunlik heritage after asking about the Spunlik Heritage membership stickers on their car. They asked about my health and I could feel how much they cared which was something I had never experienced. Choi and I experienced incredible results right away. We contacted Spunlik heritage requesting a business loan and the rest is history.

Our success story with Spunlik Heritage Corporation encouraged our friends and family to join this great company with us. It felt good to help people with things we'd struggled with. We want to continue to help our loved ones and teach them how they can help others.

We never realized we could make a difference until Spunlik Heritage came into our life. We were lost and now we're found. We've paid off our debt.

We are now proud owners of a logistic company.

I have lost weight and my husband is getting the best medical care.

We feel happy and confident, we've even become closer as a couple!"

“The investment package changed my life. I figured, maybe if the products work, then maybe the plan works. I started attending Spunlik live webinars, events and then I realized, this is what I want to do the rest of my life because this is a business based on integrity, honesty, serving, caring, and encouraging others. So I said to my wife, this is exactly what I want in my life. I want to be involved in something that is based on the fundamental principle of making everybody’s life better, and improving the world we live in. I love that this business has basically a start up cost for each products. For roughly \$120,000.00 I got my investment on the road, and for most of that it’s spent on personal stuff and household items I was going to buy anyway. I also love unlimited income potential. I don’t care how much you earn per hour on a job—you get to a ceiling, and eventually there are no more hours. You are stretched to the maximum. What’s great about this venture is the transparency I have with my funds manager. Spunlik Heritage Corporation is truly a blessing to me. Keep empowering others, focusing on serving and loving them.”

"There are so many advantages that comes with owning your own business, from my improved standard of living to the quality time with my kids. As a police officer, a quarter of my check was gone after taxes. My first year with Spunlik Heritage I made over \$250,000.00 from my pension investment alone! But it's really the accounts department team building and helping others to become financially stable and accomplish their dreams and goals that make this opportunity so fulfilling to me."

“Once I was convinced about the economic benefits of Spunlik Heritage for my family and me, I became a PROUD PROMOTER. Then I figured out the essence of my story and it became easy to share my passion. My testimony is simple and it starts with me ‘being the billboard’ and living my passion for making fitness and nutritional products in Tanzania. When people approach me and ask me, “What are you on? How can you have so much energy?” I simply share the story of how I was awarded a business grant and relinquish the outcome!

When you live what you believe in, it’s easy to promote this wonderful company. You are just being yourself! Helping people improve their quality of life and being there for their journey whether it is to increase mobility or lose weight, it’s so rewarding and wonderful!

Thank you Spunlik Heritage Corporation for making my job easier!”

“After attending Spunlik Heritage membership convention last year and seeing the market updates plus the sales forecast projections, in addition to the incredible financial products, I made the decision that this was worth investing into. I’ve never been more fired up about the future and the lives that are going to change for the better.”

"We've been a member for 3 years. Spunlik Heritage has given my family financial freedom and time freedom. I can remember before now our summer vacations were always camping trips. Once we joined Spunlik Heritage, our vacations turned into trips to places all over the world like Africa, Sweden, Germany, and Hawaii. Simply the best".
